## Excel Data anaylsis pack

Excel has a useful data analysis toolpack which can be used for computing various statistical tests and charts. Please see instructions below on how to install if your laptop does not already have it:

Windows

macOS

- 1. Click the File tab, click Options, and then click the Add-Ins category.
- 2. In the **Manage** box, select **Excel Add-ins** and then click **Go**. If you're using Excel for Mac, in the file menu go to Tools > Excel Add-ins.
- 3. In the Add-Ins box, check the Analysis ToolPak check box, and then click OK.
  - If **Analysis ToolPak** is not listed in the **Add-Ins available** box, click **Browse** to locate it.
  - If you are prompted that the Analysis ToolPak is not currently installed on your computer, click **Yes** to install it.

Windows

## Notes:

 Some languages aren't supported by the Analysis ToolPak. The ToolPak displays in English when your language is not supported. See Supported languages for more information.

## Load the Analysis ToolPak in Excel for Mac

- Click the Tools menu, and then click Excel Add-ins.
- 2. In the Add-Ins available box, select the Analysis ToolPak check box, and then click OK.
  - a. If Analysis ToolPak is not listed in the Add-Ins available box, click Browse to locate it.
  - b. If you get a prompt that the Analysis ToolPak is not currently installed on your computer, click Yes to install it.
  - c. Quit and restart Excel.

Now the **Data Analysis** command is available on the **Data** tab.
